

A collaborative textbook project: Economic Principles in Cell Biology

Our plan

Write a book for researchers and students that describes the economics of cells from different angles. The book will be an open resource for learning and teaching, non-commercial and freewritten by and for the community

Your contribution

Everybody is cordially invited to join! To propose a chapter or to contribute to writing, editing or graphic design, please get in touch.

Get in touch

E-mail: principles-cell-physiology@googlegroups.com

Slack: <https://principlesofc-l1r9380.slack.com> > #book-project

Author meetings: 4th Tuesday of every month, 5:00pm CET,
see details at <https://principlescellphysiology.org/book.html>

Current contributors

Andrea De Martino	Hyun-Seob Song
Anne Goelzer	Jürgen Zanghellini
Bas Teusink	Leonardo Pacciani-Mori
Daan de Groot	Marcelo Rivas-Astroza
Daniele De Martino	Mauricio Garcia-Benitez
David Lacoste	Markus Köbis
David Tourigny	Martin Lercher
Diana Széliová	Meike Wortel
Diego Oyarzún	Niccolo Totis
Elad Noor	Ohad Golan
Felipe Scott	Orkun Soyer
Frank Bruggeman	Pranas Grigaitis
Hadrien Delattre	Robert Planqué
Herbert Sauro	Silvio Waschina
Hidde de Jong	Steffen Waldherr
Hugo Dourado	Wolfram Liebermeister
